Applications are invited for two inaugural postdoctoral fellowships in the newly established Center for Particle Cosmology at the University of Pennsylvania.

The University of Pennsylvania Physics and Astronomy department hosts vibrant cosmology and particle physics research programs, and participates in a wide range of observational missions and experiments in these areas. The Center for Particle Cosmology facilitates unfettered interactions and collaborations between these traditionally separate groups. Postdoctoral fellows are expected to perform independent theoretical research at the interface of particle physics and cosmology, and to interact with the faculty, postdocs and graduate fellows of the Center. Current members of the center are Profs. Vijay Balasubramanian, Mirjam Cvetic, Bhuvnesh Jain, Justin Khoury, Burt Ovrut, Ravi Sheth and Mark Trodden. More information can be found at http://www.physics.upenn.edu/particlecosmo/.

Review of applications will begin November 15th and continue until the positions are filled. Applications should contain a CV, a brief description of research interests, and a list of three references who will send letters of recommendation. Send applications to: Center for Particle Cosmology Postdoctoral Fellowship, Department of Physics and Astronomy, University of Pennsylvania, 209 South 33rd Street, Philadelphia, PA 19104 - particlecosmo@physics.upenn.edu.

The University of Pennsylvania is an Equal Opportunity/Affirmative Action Employer.
