Summary of Events
2014-2015 Events

Fall Demo Day—Oct 18th

Demo Days are a fun opportunity for physics teachers to gather and share their favorite classroom demonstrations. Past Demo Days have presented a range of demonstrations, from those using everyday items, like popcorn and broken glass, to technology that can show students how to measure the speed of light. Attendees need bring nothing more than a love for Physics, but all are welcome to share their unique ways of demonstrating physics concepts.

This year’s Fall Demo Day will be held at East High School in West Chester, PA, starting at 9:00 with a light breakfast and conversation with area Physics teachers, followed by 5 to 10 minute demonstrations that can liven up your classes.

You are asked to register for this event by emailing our host: ArtZadrozny@gmail.com. There is no cost for first time attendees.

East High School is located at:
450 Ellis Lane, West Chester, PA 19380
Use the Gym entrance, from 9:00—11:30am

2014-15 Workshops

A series of 3 workshops is planned for 2014-15. Workshop #1 will be at St. Joseph’s Univ. Saturday Oct 4th 9:00 to 1:00 covering topics in classical mechanics while demonstrating the use of Vernier equipment and software and show how to transfer data to an Apple iPad via wireless connections. To register for this event contact Barry Feierman via: bhfeier@aol.com. Registration is free but is limited to 24 people.

A second workshop will be held in Feb. 2015 at LaSalle University on Energy and Thermodynamics and a third in the Spring of 2015 on waves. Check our website for details and updates.

2015 Annual Conference

Our Spring conference will be held Mar 6 & 7, 2015, at Swarthmore College. This conference gives high school and college faculty the chance to hear from noted speakers on some of the most current topics in both Physics research and Physics education strategies.

To learn more and be kept informed of these events as details become available, please provide your contact info for our mailing list.

What is SEPS AAPT?

The Southeastern PA Section of the American Association of Physics Teachers is an organization of physics teachers from the five-county region surrounding Philadelphia who are dedicated to promoting and enhancing the education of high school and college students in the science of Physics. We do this in the following ways:

• Our annual Fall Demo Days
• Hands-on Workshops
• Yearly Spring Conferences
• Ongoing newsletters and networking

Who is SEPS AAPT?

The members of the SE PA Section of AAPT are high school and college physics teachers who enjoy sharing their experiences in the classroom and helping fellow physics teachers better reach out to students who are interested in Physics and other fields of science.
